

## Mayor's Message March 25

As of today, there are 17 confirmed COVID-19 cases in Warren County. To-date there are zero cases in Hardwick, Blirstown, Knowlton or Frelinghuysen. Please continue to self distance as this is the only proven preventative step we can take at this time.

It has been reported that the Delaware Water Gap National Recreation Area saw a large number of visitors over the weekend, many from out of state, as people look to get away from some of the locations to the east experiencing higher rates of infection. If you do decide to go for a hike in any of the local parks, make every effort to maintain proper self distancing from other hikers on the trail and in the parking lot.

Hardwick town hall remains closed to the public. All business is being conducted virtually so please call or use email for all related business with the municipality.

We have all received information regarding the Census 2020. Please take the time to respond by April 1 at [my2020census.gov](https://my2020census.gov). Providing this detail is critical as the data is used to determine how federal funds are distributed to local communities for schools, roads, other public services and the number of seats each state has in the U.S. House of Representatives and State Assembly.
