Sunday March 11 Update - Evening

Based on the information that we have now, there are approximately 12 homes in town still without power. I just got back from a drive around and there are work crews at Ahlers Lane, Birch Ridge by Camp Mason and Millbrook Road. We think that when power is restored at those locations everyone or almost everyone in town will be back on line. There may still be a few homes out of power that we don't know about so those people need to bring it to our attention so we can relay that information to JCPL. They also need to call JCPL and report the outage.

JCPL will next be sending crews next to take care of low hanging wires and trees or poles leaning on power lines. I know that some of you have been sending that information to Committeeman Perry. Please continue to do so. It will help if you describe the situation as best you can so we can prioritize the ones that pose the most serious threat. In addition, we'll be conducting drive arounds to identify the locations. We will take that information and forward to JCPL.

Thank you again for all pulling together to get us through this difficult and challenging time. The spirit of cooperation and sharing displayed by the residents of our North Warren communities has been amazing and inspiring.

I'm hoping that tomorrow will be the last update needed. Let's pray that the weather cooperates.....

Kevin, Al and Jim
