

*FOR CELL PHONES PLEASE PRESS FOR PDF FILE*

This storm has created hazardous and dangerous conditions throughout the area. There are widespread power outages and based on discussions with JCP&L, it may be a while until power can be fully restored.

Our DPW department reports that Road conditions remain extremely hazardous with downed trees and power lines so we recommend staying home this evening.

We are communicating with Blairstown and Emergency Management officials regarding opening emergency warming and charging stations and will communicate that detail on this website and on social media tomorrow.
